

ARYA LAKSHMI M

AI Engineer

+91 90804 07702 | aryalakshmi.dev@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

AI Engineer with hands-on experience shipping GenAI systems to production — multi-agent LLM workflows, RAG-based knowledge systems, and automated LLM evaluation pipelines. Comfortable owning features end-to-end, from API design to live monitoring.

SKILLS

Generative AI & LLMs	LLMs, Prompt Engineering, OpenAI API, Anthropic Claude API, LLM-as-a-Judge Evaluation, Open-Source LLMs
Retrieval & Knowledge	RAG, Embeddings, Vector Databases (FAISS, pgvector), Semantic Search, Reranking
Agentic AI Systems	pydantic-ai, LangChain, LangGraph, Tool/Function Calling, Multi-Agent Systems (CrewAI), Voice Agents (Retell), Agent Memory (Supabase)
Backend & Full-Stack	Python, FastAPI, REST APIs, SSE/Streaming, React.js, JavaScript
Data & Storage	PostgreSQL/Supabase, Redis, MongoDB, MySQL, Vector Stores
Deployment & Observability	Docker, Git/GitHub, CI/CD (GitHub Actions), Railway, Vercel, Logfire, Model Evaluation

PROFESSIONAL EXPERIENCE

AI Engineer Intern · Just Move In (United Kingdom · Remote)	Apr 2026 – Present
- Engineered the core multi-agent LLM system behind a customer-facing AI assistant for a UK property-moving platform (Python, FastAPI, pydantic-ai, Claude/OpenAI) — built AI voice agents for automated call triage and appointment booking, and RAG retrieval-quality tracking for compliance-critical answers; shipped 150+ tickets to production. - Built the AI quality-evaluation stack end-to-end — an automated LLM-as-judge, a golden-dataset test suite across 6 product domains with a CI gate that blocks releases on quality regressions, customer-satisfaction and model-comparison harnesses, and a conversation-analytics pipeline surfaced through live monitoring dashboards and alerts.	

PROJECTS

AI Knowledge Copilot — Intelligent RAG System	GitHub
Production-grade AI knowledge assistant that lets users query PDFs, documents, and web content via advanced Retrieval-Augmented Generation. Implemented semantic search, reranking, citation-based answers, and hallucination control for accurate, grounded responses.	
Tech Stack: <i>FastAPI, LangChain, FAISS, Sentence Transformers, Llama / OpenAI</i>	
Quick AI — Content Generation Platform	Live
AI-powered creative assistant on the PERN stack, integrated with OpenAI and ClipDrop APIs for generating articles, titles, and images. Deployed on Vercel with dynamic content generation, image editing, and subscription-based access.	
Tech Stack: <i>React.js, Node.js, Express.js, PostgreSQL (Neon DB), OpenAI API, ClipDrop API, Vercel</i>	
Multi-Agent Startup Simulator	
Multi-agent AI system that simulates a startup team by coordinating Product, Engineering, and Market Research agents to analyze ideas and produce structured business outputs. Enabled parallel task execution, role-based reasoning, and agent collaboration.	
Tech Stack: <i>Python, CrewAI, LangChain, FastAPI, OpenAI</i>	

EDUCATION

Sri Eshwar College of Engineering · B.Tech, Computer Science & Business Systems (CSBS)	2022 – 2026
CGPA: 8.02 / 10	

CERTIFICATIONS

- Certified System Administrator — [ServiceNow](#) (2024)
- Full Stack Web Development — [Infosys Springboard](#) (2024)
- Joy of Computing using Python — [NPTEL](#) (2024)
- Networking Basics — [Cisco Networking Academy](#) (2024)
